SUMMARY

Computer Science undergraduate with knowledge of Java, Database Management Systems, HTML, CSS, and web development fundamentals. Experienced in developing academic projects and applying programming concepts to solve real-world problems. Passionate about learning new technologies, improving coding skills, and building user-friendly applications. Looking for opportunities to gain practical experience and contribute to innovative software projects.

EDUCATION

2024–2028 | B.E. Computer Science and Engineering | Alva's Institute of Engineering & Techonology
2022-2024 | PUC | Amrutha Bharathi PU College
2012–2022 | SSLC | Church English Medium School, Ajekar

TECHNICAL SKILL

Programming Languages: Advanced Java, Java, C, SQL
Web Technologies: HTML, CSS
Database: MySQL
Tools: GitHub, VS Code, Eclipse
Core Concepts: Data Structures, Object-Oriented Programming (OOP), DBMS

PROJECTS

Hospital Management System | Java

- Developed a system to manage patient records, doctor information, and appointment scheduling.
- Implemented features for adding, updating, and retrieving hospital data efficiently.

Vehicle Radar System | DBMS, SQL

- Designed and developed a database system for storing and managing vehicle detection records.
- Implemented SQL queries for data retrieval, analysis, and report generation.

Mini Personal Assistant | Python

- Developed a voice-based personal assistant capable of performing basic tasks and responding to user commands.
 - Implemented features such as opening applications, retrieving information, and executing simple automated tasks.
-

CERTIFICATES & PARTICIPATION

- Java Programming – Coursera
- Python Programming – Coursera
- Database Management Systems – Coursera
- C Certificate – HackerRank
- Participant, Lazarus Mission Hackathon
- Participant, International Conference on Water Security, Sustainability, and Disaster Risk Reduction
